Quarto

Quarto enables you to weave together content and executable code into a finished presentation. To learn more about Quarto presentations see <https://quarto.org/docs/presentations/>.

Logo

If you'd like to change the logo in the bottom right corner, change the `logo: "LUlogo.png"` to `logo: "LMSlogo.png"` or `logo: "CHICASlogo.png"` in the `_extensions/.../LUslides/_extension.yml` file.

Code

When you click the **Render** button a presentation will be generated that includes both content and the output of embedded code. You can embed code like this:

```
1 + 1
```

[1] 2

You can also add text marked as code!

New topic!

To make a slide like this, use:

```
# Section title {background-color="#D9DBDB"}
```
